The amendment received 4 January 2005 has been made of record. Claims 1-25 and 27-44 are pending.

Upon further consideration and search, the indicated allowability of claims 11, 12 and 15-20 found in the previous office action is withdrawn.

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 11- 20 are rejected under 35 U.S.C. 102(b) as being anticipated by FR '030 in view of the teaching reference to Brownfield.

FR '030 teaches fluoropolymer based tape as discussed in the previous office action. Example 2 of the reference explicitly teaches "micronized" PPS. The reference to Brownfield demonstrates that "micronized" PPS encompasses particle sizes from 0.1 to 100 um (see claim 1).

Therefore the FR '030 reference is seen as teaching all aspects of the rejected claims.

Claims 1-10, 21-25 and 27-44 are allowed.
